NO ONE DREAMS OF SILVER

PanOptix® is the most implanted trifocal IOL worldwide and delivers an exceptional high-quality visual experience from far to near, with **99% patient satisfaction**.^{1-4*}

20/20 VISION AT ALL
DISTANCES^{4,5}

>9/10 PATIENTS ARE
SPECTACLE INDEPENDENT⁶

NATURAL FOCAL
POINT OF 60CM^{4,6}

*Based on global Clareon® PanOptix® and AcrySof® PanOptix® unit sales

¹Pooled binocular defocus curve data from six individual studies. Snellen VA was converted from logMAR VA. A Snellen notation of 20/20⁻² or better indicates a logMAR VA of 0.04 or better, which means ≥3 of the 5 ETDRS chart letters in the line were identified correctly.

TECNIS Eyhance™ IOL

A modern-day monofocal IOL

Empower your
patients to engage
in everyday activities
with confidence

- Revolutionary performance that defies monofocal convention by offering enhanced intermediate vision¹
- Outperforms in low-light conditions, increasing confidence in expected outcomes²
- Lock-in visual performance with rotational stability³

For healthcare professionals only. Please reference the Instructions for Use for a complete list of Indications and Important Safety Information and contact our specialists in case of any question.

TECNIS™ See More.

Johnson & Johnson VISION

welcome

We are delighted to welcome you to a groundbreaking event in ophthalmology — the first-ever **VideoCataractRefractive (VCR)** Meeting in the Middle East!

It is our great pleasure to host you at the **Hilton Heliopolis, Cairo, Egypt**, on **November 13th and 14th, 2025** for an unparalleled learning experience in cataract and refractive surgery.

For over four decades, **VCR**, founded by the legendary **Dr. Lucio Buratto**, has been a beacon of innovation and education in ophthalmology. Renowned for its live surgery broadcasts, cutting-edge technology showcases, and expert-led sessions, **VCR** has shaped the careers of countless surgeons around the world.

Now, this prestigious meeting makes its historic debut outside Italy, bringing its unique blend of knowledge, expertise, and excellence to the heart of the Middle East.

At **VCR Middle East**, you will experience:

- Near live surgery demonstrations by world-renowned surgeons, transmitted in high-definition from state-of-the-art operating rooms.
- Interactive sessions highlighting the latest advancements in cataract and refractive surgery - including femtosecond laser technology, advanced IOLs, and innovative surgical techniques.
- Expert lectures and panel discussions addressing complex cases, complication management, and emerging trends in the field.
- Exceptional networking opportunities with leading ophthalmologists from the region and beyond.

We are truly honored by your participation and look forward to sharing with you an inspiring and enriching experience.

Welcome to VCR Middle East — where knowledge meets innovation!

SPEAKERS INSTRUCTIONS:

Congress halls will be equipped with:

Two laptops: one Apple Mac & one PC with Microsoft Windows 11 and Microsoft Office 2019.
Internet access will NOT be available inside the meeting rooms.

To ensure that the meeting progresses smoothly, please stick to the following instructions:

- All presentations should be recorded on a USB flash memory (preferred).
- Please save presentations in PowerPoint 2007 or later format for PC & Keynote for Apple.
- Upload your presentation early to the Audiovisual Center (RM Events) as we will load the presentations to the hard drive of our systems one hour before the sessions.
- No personal laptops are permitted for presentations.
- In case you have problems with your presentation(s), please do not hesitate to contact the IT support team (RM Events).

I-Ring® Pupil Expander: Atraumatic Solution for Intraoperative Small Pupil

Atraumatic Options

Ring Material

- Polyurethane — soft and resilient material is gentle on intraocular tissue

Channel

- Fixed channel height does not compress and pinch iris during insertion or removal

Enhanced Patient Comfort and Ease of Use

- Designed to remain planar in anterior chamber protecting corneal endothelium
- Completely (360°) engages iris and eliminates distinct stress points

Ease of Use

Straightforward

- Single handed insertion, engagement and removal
- Minimal preparation for insertion by surgical team

Intuitive

- Easy iris engagement and disengagement requiring only Sinskey hook
- Green color provides excellent contrast and visibility

Fast

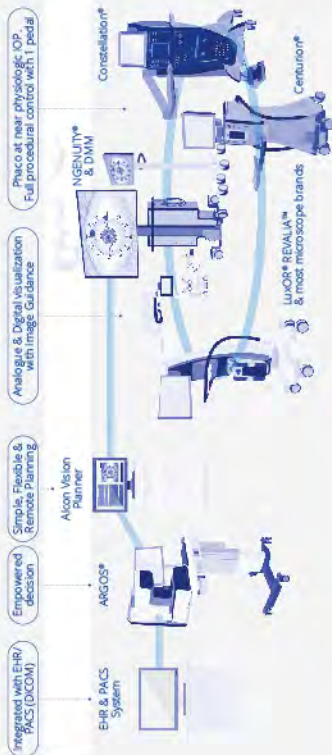

- Design and material facilitate fast insertion and removal
- Minimal learning curve

08:30 - 09:30 Registration & Reception

09:30 - 10:30 Session 1: Do it Better

*From the initial incision to posterior rhexis, what truly separates a novice from an expert surgeon?
Join "Do It Better" as we put these critical steps under the microscope*

Moderators:

Ahmed Assaf, Vittorio Picardo

Panelists:

Hossam Ziada, Nancy Al Raqqad, Nihal Shakankiri, Yehia Salah

09:30 - 09:35

Three pillars for easy phaco
Mohamed Habib Alsayed

09:37 - 09:42

Resident case number 60
Mohamed Habib Alsayed

09:44 - 09:49

The upper temporal
Ahmed Hamdy Khallaf

09:51 - 09:56

Phacoemulsification grade 3 nuclear sclerosis stop-and-chop technique
Maryam Darwish

09:58 - 10:03

Posterior capsulorrhexis in congenital cataract surgery
Nihal Shakankiri

10:05 - 10:10

Don't do me
Ahmed Hamdy Khallaf

Each talk followed by 2 minutes discussion

DAY 1

10:30 - 11:30 Session 2: Red Flags in Refractive Surgery

Are you certain you can spot the subtle signs of a high-risk LASIK candidate? Join us to sharpening your ability to identify the warning signs you can't afford to miss

Moderator:

Mohamed El Kateb

Panelists:

Ahmed El Massry, Hossam Ziada, Maged Maher, Mohamed Shafik

Speaker:

Mohamed El Kateb

11:30 - 12:00 Opening Ceremony

We will celebrate the enormous career of a true icon, the legendary Lucio Buratto. Stay for a captivating journey through time as we present the ESCRS 2025 award-winning video, about the history of IOLs

Moderators:

Ahmed Assaf, Hatem Ammar, Lucio Buratto

Speaker:

Vittorio Picardo

12:00 - 13:00 Session 3: **Intraoperative Complications of KLEx**

Hard times with SMILE?, opaque bubble layers?, black spots?, or lenticular planes that are impossible to identify? More complications? Join us learn how to manage these complications, including the dreaded postoperative ametropic surprise

<u>Moderators:</u>	Ahmed El Massry, Ozana Moraru
<u>Panelists:</u>	Abdallah Hassouna, Ahmed Assaf, Ahmed Sedky, Lucio Buratto
<u>Speakers:</u>	Ahmed Sedky, Amr Al-Amin, Andrea Russo, Asem Zahran, Moones Abdallah Sami Alrabiah
12:00 - 13:00	Complications of KLEx surgery Ahmed El Massry

13:00 - 13:30 Keynote Lecture: **History of Lamellar Refractive Surgery**

How did we get from early keratomileusis to the sophisticated procedures of today? Join us for the keynote lecture as the legendary Lucio Buratto, a pioneer who shaped the field, recounts the entire history of lamellar refractive surgery

<u>Moderator:</u>	Lucio Buratto
<u>Speaker:</u>	Vittorio Picardo

13:30 - 14:30 **Lunch Break**

DAY 1

14:30 - 15:30 Session 4: **Posterior Capsule is Open, Now What?**

It's the complication that makes every surgeon's heart stop: the posterior capsule is open. Join us get the essential, step-by-step guide for managing this critical moment and ensuring the best possible outcome

Moderators:

Hatem Ammar, Ozana Moraru

Panelists:

Abdallah Hassouna, Ahmed Sedky, Vittorio Picardo, Yehia Salah

14:30 - 14:35

Posterior capsule rupture
Ashraf Sewelam

14:37 - 14:42

PCR management
Mostafa Walyallah

14:44 - 14:49

PCR post-injectie ambele
Ozana Moraru

14:51 - 14:56

Multistage complications: Never give up
Adnan Ajmi Al Hassani

14:58 - 15:03

Lifebuoy cataract: The inevitable rupture
Meriem Ouederni

15:05 - 15:10

PCR non predictable
Hatem Ammar

15:12 - 15:17

Yamani scaffold for floppy iris
Khaled A. Khalifa

Each talk followed by 2 minutes discussion

15:30 - 15:45 Corporate Session 1: **BVI Symposium 1**

15:30 - 15:45 | I ring BVI
Amr Sheta

15:45 - 16:15 **Coffee Break**

16:15 - 17:15 Session 5: **LASIK Complications**

From frustrating flap complications to the notoriously persistent challenge of epithelial ingrowth, are you prepared to handle the LASIK complications?

Moderators:

Lucio Buratto, Mohamed Shafik

Panelists:

Ahmed Sedky, Mohamed El Kateb, Ozana Moraru, Vittorio Picardo

16:15 - 16:20

Fibrin Glue to treat recurrent epithelial ingrowth

Ticiano Giobellina

16:22 - 16:27

LASIK enhancement following LASIK for hyperopia with flap tear

Andrea Russo

16:29 - 16:34

Managing a triple complication post LASIK surgery

Mohamed Shafik

16:36 - 16:41

Mind Map for a torn flap

Mohamed Hosny

16:43 - 16:48

Suction Loss

Ahmed Assaf

16:50 - 16:55

Flap dislocation and Epithelial ingrowth

Haykel Kamoun

Each talk followed by 2 minutes discussion

DAY 1

17:15 - 17:30

Corporate Session 2: Alcon Symposium

Alcon

17:15 - 17:22

The evolution from AcrySof to clareon
Bassem Fayez

17:22 - 17:29

PanOptix deep dive: Precision in complexity
Ramy Riad

17:30 - 18:35 Session 6: IOLs Related Problems

Sponsored by :  **Jamjoom Pharma**
جمجوم فارما

From the sudden panic of a torn haptic during implantation to the late surprise of a dislocated lens or the high pressure of capsular block syndrome, IOLs can present unique and challenging complications. Join us as we explore these "IOLs Related Problems"

Moderators:

Ahmed Assaf, Vittorio Picardo

Panelists:

Alaa El Zawawi, Bassem Fayez, Nancy Al Raqqad, Ozana Moraru

17:30 - 17:35

Haptic lost and found, rescue manouver during Yamen ISHF
Nancy Al Raqqad

17:37 - 17:42

Management of unusual complication of scleral fixated IOL:
Versatility of scleral fixation techniques
Ashraf Abdelazeem

17:44 - 17:49

Is it the lens, the capsule or in between
Yehia Salah

17:51 - 17:56

When the Haptics pops out: Saving the 3-Piece IOL in a PCR case
Mohamed Affi

17:58 - 18:03

Anterior segment reconstruction
Mohamed Nabil Hamza

18:05 - 18:10

Strategy in the management of subluxated IoL within its bag
Ozana Moraru

18:12 - 18:17

IOL on the loose
Meriem Ouederni

18:19 - 18:24

Correcting distorted Yamane fixated IOL: A prolene mesh solution
Rasha Moussa

18:26 - 18:31

IOL subluxation
Ihab Saad Othman

Each talk followed by 2 minutes discussion
